### **Fulton Commission to Hold Some Meetings in North and South Fulton County**

*Pilot meetings begin in August 2009*

At its June 3, 2009 meeting, the Fulton County Board of Commissioners passed a resolution, sponsored by Commissioner Robb Pitts (District 2, At-Large), to hold two meetings away from the Fulton County Government Center, in the evening hours, during 2009.

By holding some meetings in other areas of the county, the Board hopes to make proceedings more accessible to residents.

The "Pilot" meetings will be held at the North and South Fulton Government Service Centers on a trial basis beginning in August. This is the first time that meetings have been held off-site. Both meetings will begin at 7 p.m.

"Because of Fulton County's large size, it can be difficult for residents to participate in the civic process," said Commissioner Pitts. "We want to bring the government to the people."

The dates of the pilot meetings have not been set, but will be advertised at a later date.

The North Fulton Government Service Center is located at 7741 Roswell Road in Sandy Springs and the South Fulton Government Service Center is located at 5600 Stonewall Tell Road in College Park.
